What is the PEP Hub?

Partner Enablement Program (PEP Hub) is designed for people with an entrepreneurial mindset, working in, or interested to work in International Education.

Being an expert in this domain we now aim to expand our reach. Thus, we are seeking smart and like-minded individuals who are looking for an opportunity to either have a second source of income or as a full-time business commitment.

PEP Hub Partners have the potential to begin earning additional income immediately. Plus, the investment to get started is minimal.

To help our partners reach their potential quickly we have put together a smart, easy-to-use support system. This is designed to provide the business-building tools, training, guidance and visa conversion support.

And after the initial investment, this support is absolutely free. We would not only continually equip and train our partners to excel, but we will also extend all the services offered by AJV Global to their customers as well.
